Disability Forms

In the past, we have completed all disability forms, Attending Physician Statements, and other miscellaneous paperwork at no cost to our patients.

However, due to the large volume of forms this office is requested to process, it has become necessary to charge a nominal fee for this service.

Effective November 1, 1998, there will be a \$15.00 service charge for all disability forms, Attending Physician Statements, and other paperwork which you request your doctor to complete. Your physician will review not only each form but also your medical records before completing the required information.

In order to expedite the completion of your form, please complete the Patient Information section entirely, and supply me with the following information:

- Date of injury
- Last date worked
- Date disability began
- Date returned to work

Your \$15.00 payment should be given to the coordinator at the front desk along with your form. When the form has been completed, you will be notified, and your paperwork will be promptly returned to you.

Thank you for your cooperation.
