Should you choose to have surgery at this organization we want you to know that we value patient safety. Therefore you may hear us performing certain tasks or asking certain questions that may surprise you. Even though we may know you, we will ask you identifying information such as date of birth or your address besides asking you to tell us your name. We take a pause or a "time out" before we actually start your procedure to assure once again that we have everything that we need and the entire team is in agreement. Only Dr. Epstein will mark your surgical site.

This organization adheres to strict infection control measures before, during and after your procedure including but not limited to: procedural technique, the environment of care, care of equipment and instruments, and education of all staff in the most up to date infection control measures.

This practice educates staff upon hire and annually thereafter in hand hygiene and we follow the CDC guidelines for hand hygiene. We encourage staff to stay home when they are sick. We provide tissues and garbage cans throughout the facility and encourage everyone to cover their mouth when coughing or sneezing and to wash their hands.
